Scalability

Performance

Availability

## Rely on a bespoke & private Cloud platform, fully designed for your performance critical business applications

Our **CustomCloud** offering provides a scalable & tailored hosting solution, for you to take full advantage of your business applications. In addition to a secure & private platform, *Prodware* can also provide you with the public Cloud services you require for your non critical requirements, such as **Office 365**.

Our wide range of services makes *Prodware* a unique player in the IT market: integrator, hoster & managed services provider.

In addition, our network & security skills allow us to design & provide a strong connectivity for your data.

## Our strengths:

- › 5 data-centers located in EU
- › An efficient, robust and industrialised infrastructure
- › Monitoring services up to business applications level
- › *Prodware* maintain full control: no subcontracting
- › A comprehensive support schedule, up to 24x7
- › 10 years experience
- › 150 dedicated resources
- › 500 hosted customers
